

**Grade 1 Unit 3**

Lesson 12

CC BY 2021 Illustrative Mathematics®

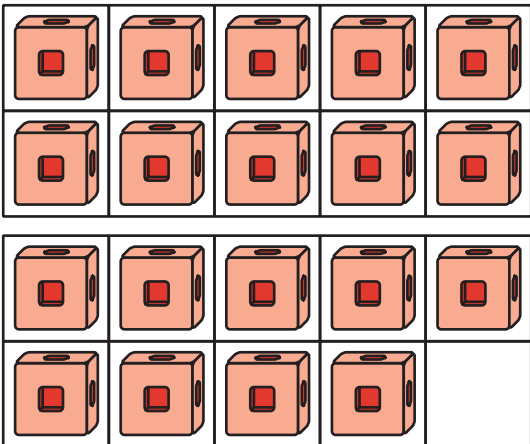

**Unit 3 Lesson 12: Subtract From a Teen Number****WU Choral Count: By Ten (Warm up)**

Student Task Statement

**1 Noah's Collection**

Student Task Statement

Noah likes to collect game pieces.  
He has 19 game pieces arranged like this in his bin.

He takes out 8 game pieces to play with.  
How many game pieces are left in the bin?  
Show your thinking using drawings, numbers, or words.

Equation: \_\_\_\_\_

**2 Addition and Subtraction Equations with Teen Numbers**

Student Task Statement

Find the number that makes each equation true.

Be ready to explain your thinking in a way that others will understand.

1.  $13 + 4 = \square$

---

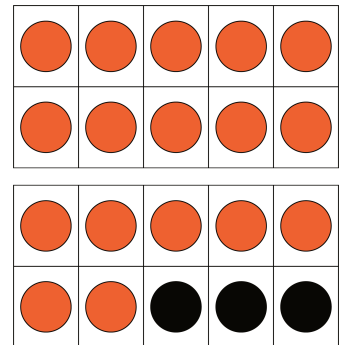

2.  $16 + \square = 17$

3.  $19 - 8 = \square$

4.  $14 - 2 = \square$

5.  $11 + \square = 17$

6.  $\square + 1 = 18$

### 3 Introduce Shake and Spill, Cover (up to 20)
