

# Lesson 4: Attributes of Rectangles, Rhombuses, and Squares

- Let's find out what makes rectangles, rhombuses, and squares what they are.

## Warm-up: Which One Doesn't Belong: More Attributes

Which one doesn't belong?

A

B

C

D

# 4.1: What Makes These Shapes So?

1. These are right triangles.

These are not right triangles.

a. Which of the following are right triangles? Circle them.

b. What makes a shape a right triangle?

2. These are rectangles.

These are not rectangles.

a. Which of the following are rectangles? Circle them.

b. What makes a shape a rectangle?

3. These are rhombuses.

These are not rhombuses.

a. Which of the following are rhombuses? Circle them.

b. What makes a shape a rhombus?

4. These are squares.

These are not squares.

a. Which of the following are squares? Circle them.

b. What makes a shape a square?
