9.3: Centers: Choice Time

Choose a center.

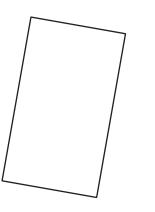

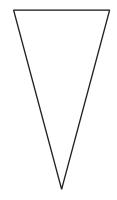

Section Summary

Section Summary

In this section, we noticed shapes in the world around us.

We described and compared shapes.

This shape looks like a door that is crooked. It has 4 corners.

This shape has 2 long sides and 1 shorter side.

The shapes are alike because they have straight sides.

The shapes are different because one has 4 sides and one has 3 sides.

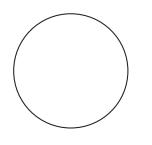

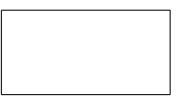

We learned the names of these shapes:

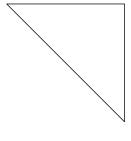

triangle

rectangle

square
