

## Lesson 9: Add Three-digit Numbers

- Let's practice adding within 1,000.

### Warm-up: Number Talk: Ten and Some More

Find the value of each expression mentally.

- $528 + 2$

- $528 + 7$

- $487 + 3$

- $487 + 8$

## 9.1: How Did You Add Three-digit Numbers?

Find the value of each expression. Show your thinking.

1.  $384 + 409$

2.  $757 + 152$

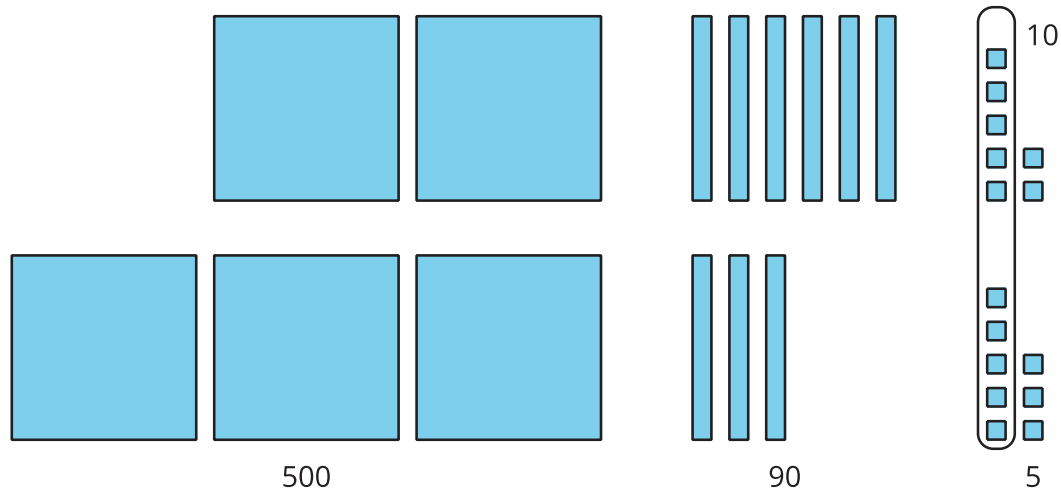

$$3. 262 + 438$$

$$4. 575 + 166$$

## 9.2: Analyze and Add

Noah and Kiran showed how they found the value of  $267 + 338$ .

Noah's work

$$500 + 90 + 5 = 595$$

Kiran's work

$$200 + 300 = 500$$

$$60 + 30 = 90$$

$$7 + 8 = 15$$

$$500 + 90 + 15$$

$$500 + 90 + 10 + 5$$

$$500 + 100 + 5 = 605$$

1. How is Noah and Kiran's work the same? How is it different?

---

---

---

2. Which student found the correct value? Explain or show your thinking.
