Unit 7 Lesson 15: Write Times

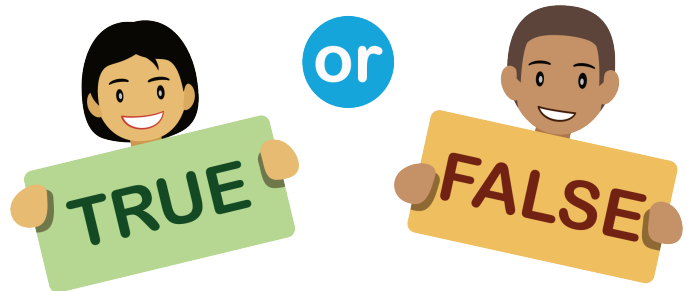

WU True or False: Close To 30 (Warm up)

Student Task Statement

Decide if each statement is true or false.

Be prepared to explain your reasoning.

- $30 = 30$
- $10 + 15 = 15 + 10$
- $10 + 10 + 10 = 3$

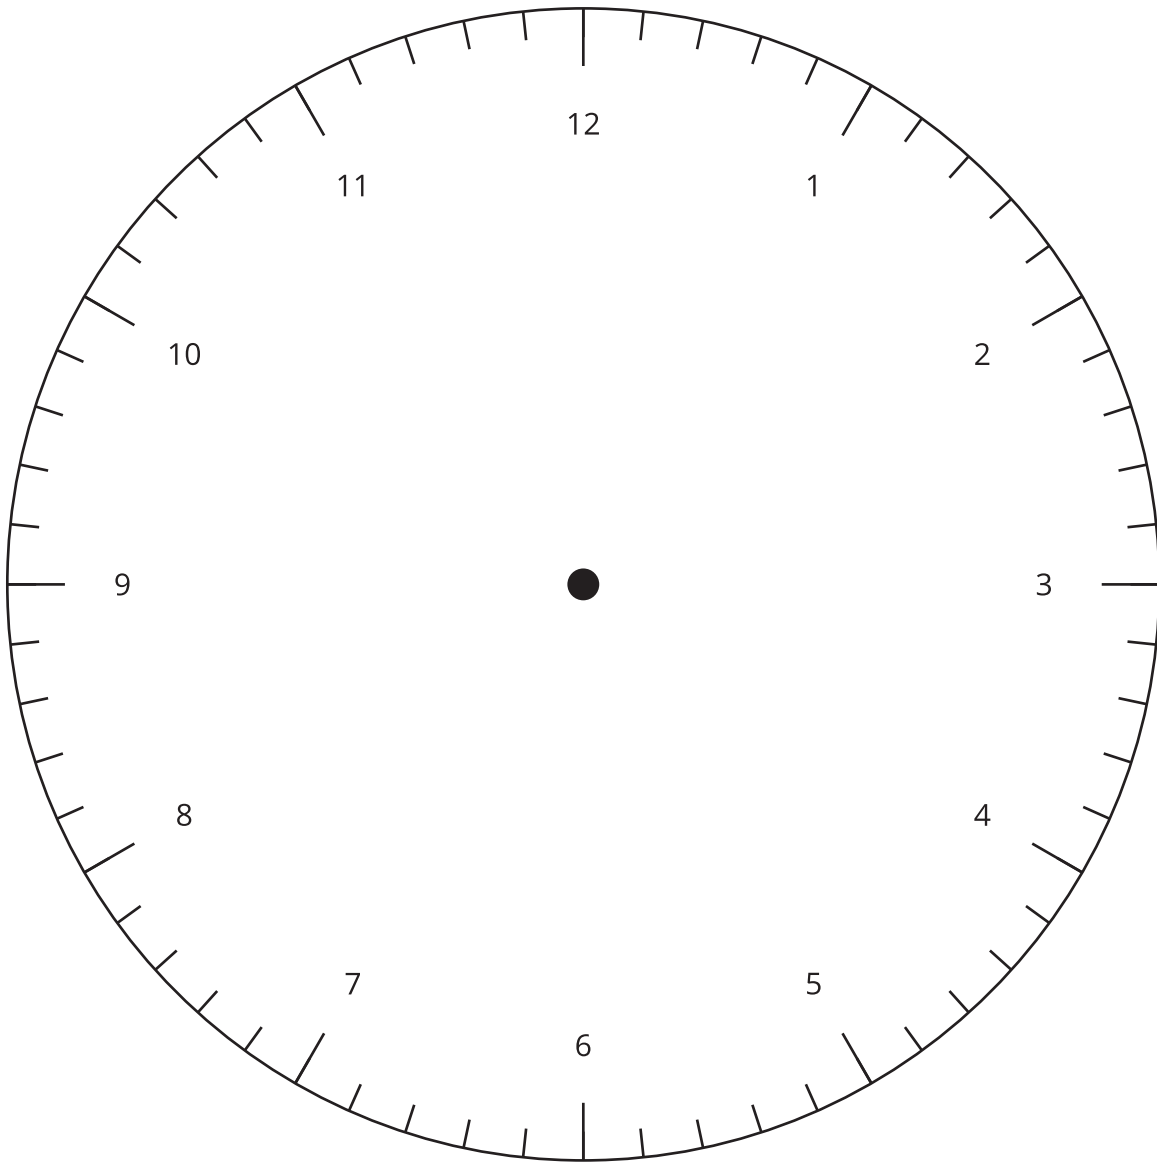

1 Count the Minutes

Student Task Statement

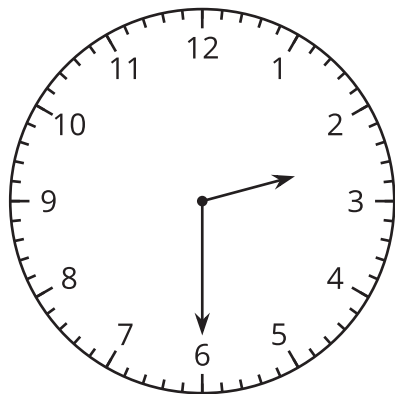

Start at 12.

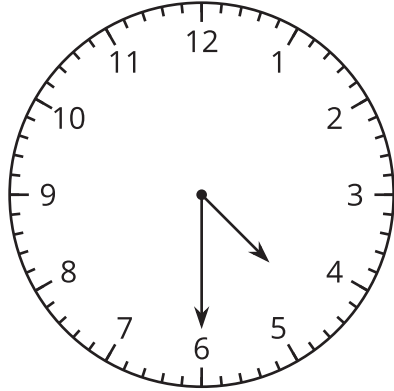

Count the minutes around the clock until you get to half the clock.

Circle where you stop.

Synthesis:

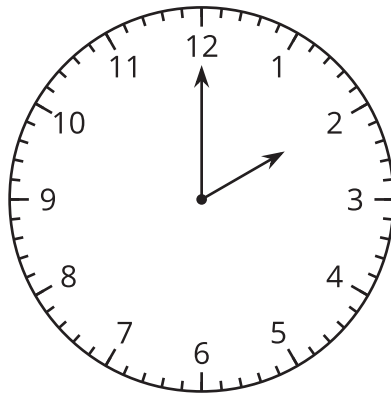

2 All the Time in the World

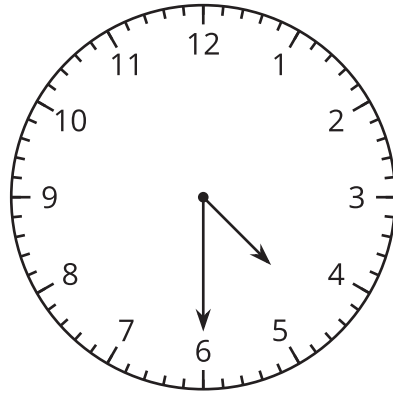

Student Task Statement

1. For each clock, write the time.

a.

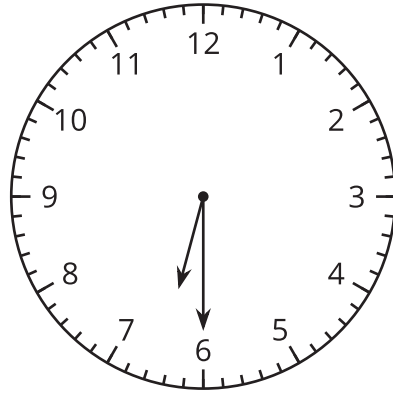

b.

|---|

3. This clock only has a minute hand.
What time could it be?
Draw an hour hand and write the time.

| |
|---|
| : |
|---|

If you have time: What other times can you show on the clock?
