Unit 9 Lesson 2: Fluency Flip

WU True or False: Sums within 20 (Warm up)

Student Task Statement

Decide if each statement is true or false. Be prepared to explain your reasoning.

- $8 + 5 = 8 + 2 + 5$
- $8 + 5 = 8 + 2 + 3$
- $8 + 5 = 10 + 3$

1 Heads Up: Make 20

Student Task Statement

Directions:

- Partner A holds a card on their forehead without looking.
- Partner B names the number that you can add to the number on the card to get 20.
- Partner A says the number on their card.
- Record an equation to represent how you found the unknown addend.

my equations	my partner's equations

my equations	my partner's equations

2 Number Mix Up
