Unit 1 Lesson 6: Choose a Scale

WU Notice and Wonder: Bar Graph Scales (Warm up)

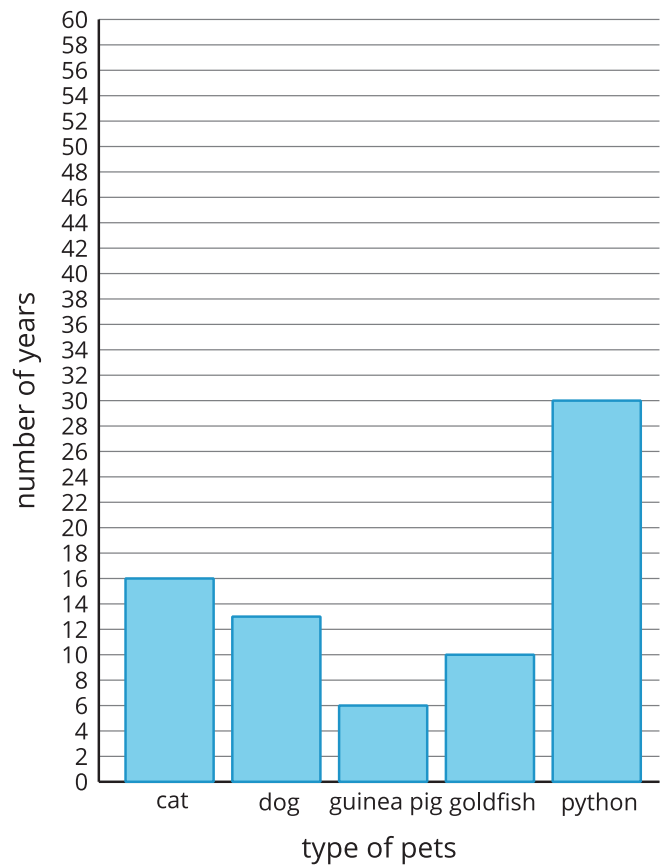

Student Task Statement

What do you notice? What do you wonder?

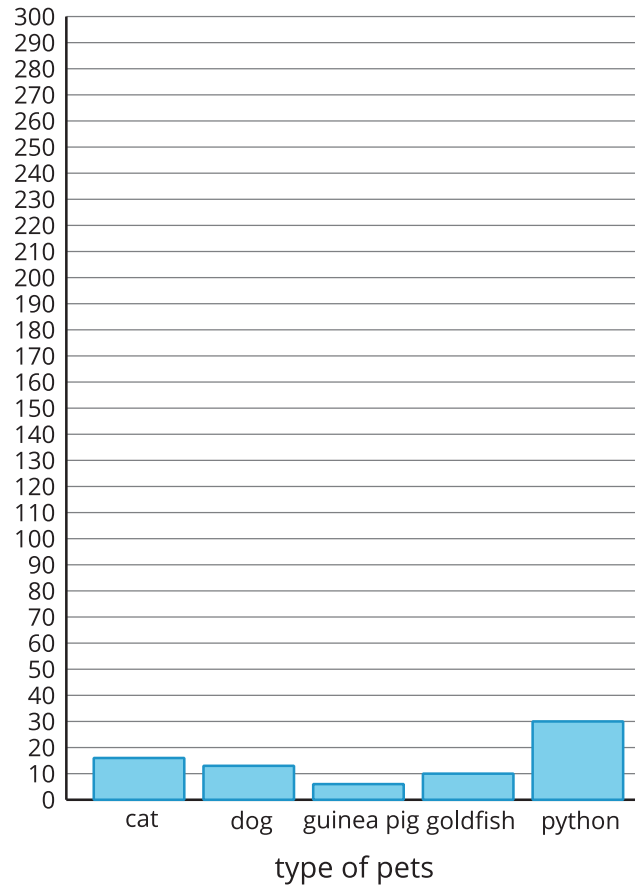

Lifespan of Pets

Lifespan of Pets

1 Represent Pattern Blocks

Student Task Statement

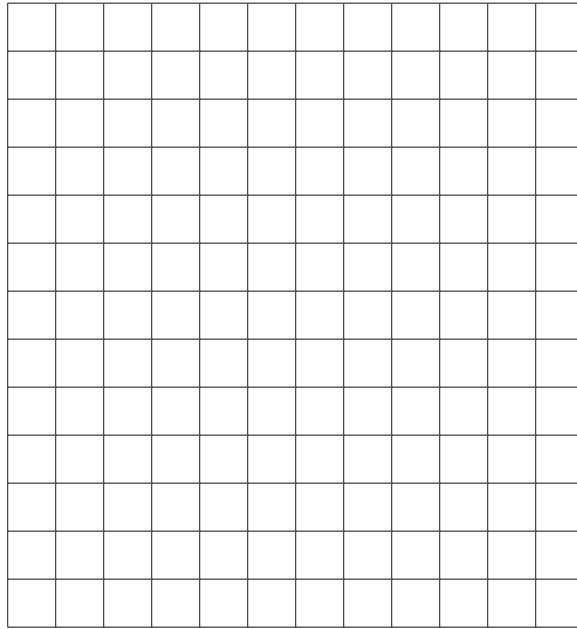

Here is a collection of pattern blocks.

Mai, Noah, and Priya want to make a bar graph to represent the number of triangles, squares, trapezoids, and hexagons in the collection.

- Mai says the scale of the bar graph should be 2.
- Noah says the scale of the bar graph should be 5.
- Priya says the scale of the bar graph should be 10.

1. Who do you agree with? Explain your reasoning.
2. Use the scale that you chose to create a scaled bar graph to represent the collection of pattern blocks.

2 Represent More Data in a Scaled Bar Graph

Student Task Statement

All the third-grade students at school were asked, “What is your favorite time of the year?” Their responses are shown in this table:

favorite time of the year	number of students
winter	24
spring	13
summer	40
fall	22

Use the data from this table to create a scaled bar graph.
