1. What information does each row contain?
2. What is the range for each variable?

3. Do you see an association between the two variables? If so, describe the association.

3 Temperature vs. Latitude (Optional)

Student Task Statement

1. Make a scatter plot of the data.

2. Describe any patterns of association that you notice.
3. Draw a line that fits the data. Write an equation for this line.
