Unit 3 Lesson 3: Add Your Way

WU Number Talk: Hundreds, Tens, and Ones (Warm up)

Student Task Statement

Find the value of each expression mentally.

- $200 + 40 + 7$
- $50 + 300 + 2$
- $40 + 600 + 12$
- $500 + 17 + 130$

1 Strategies to Add

Student Task Statement

Find the value of each sum in any way that makes sense to you. Explain or show your reasoning.

1. $325 + 102$
2. $301 + 52$
3. $276 + 118$
4. $298 + 305$

2 Two Ways to Add

Student Task Statement

Andre found the value of $276 + 118$. His work is shown.

$$\begin{array}{r} 200 + 100 = 300 \\ 70 + 10 = 80 \end{array}$$

$$6 + 8 = 14$$
$$300 + 80 + 14 = 394$$

Clare found the value of $276 + 118$. Her work is shown.

$$6 + 8 = 14$$
$$70 + 10 = 80$$
$$200 + 100 = 300$$
$$14 + 80 + 300 = 394$$

With your partner, discuss:

- What's different about Clare and Andre's work?
- What's the same?
