

## Grade 1 Unit 6

Lesson 12

CC BY 2021 Illustrative Mathematics®

## Unit 6 Lesson 12: Compare Measurements

### WU Notice and Wonder: 6, 8, and 14 (Warm up)

#### Student Task Statement

What do you notice?

What do you wonder?

$$6 + 8 = 14$$

$$8 + 6 = 14$$

$$14 - 6 = 8$$

$$14 - 8 = \square$$

### 1 Friendship Bracelets

#### Student Task Statement

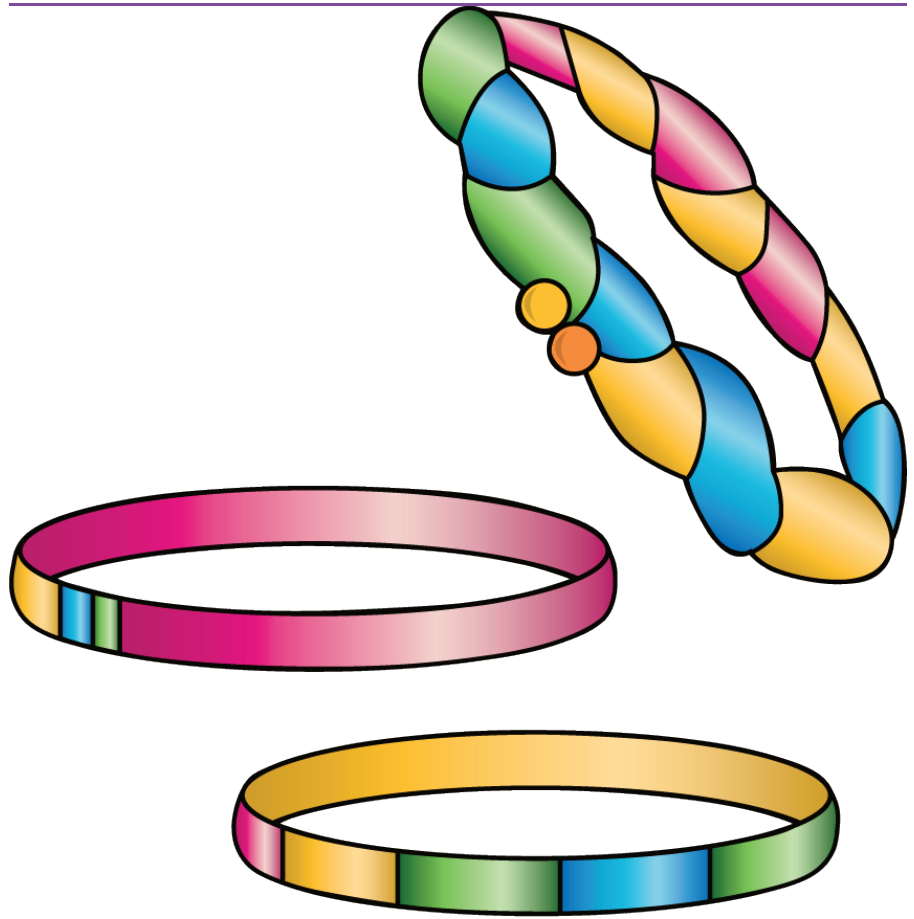

Priya and Han are comparing the lengths of their friendship bracelets.

Han's bracelet is 14 cubes long.

The length of Priya's bracelet is 4 cubes fewer than Han's bracelet.

How long is Priya's bracelet?

Show your thinking using drawings, numbers, or words.

## 2 Same Bracelets, Different Story

### Student Task Statement

Han's bracelet is 4 cubes longer than Priya's bracelet.

Priya's bracelet is 10 cubes long.

How long is Han's bracelet?

Show your thinking using drawings, numbers, or words.

## 3 Introduce Write Numbers, Numbers to 120 by 1

### Student Task Statement
