

Unit 1 Lesson 3: A Gallery of Data

1 Notice and Wonder: Dot Plots (Warm up)

Student Task Statement

The dot plots represent the distribution of the amount of tips, in dollars, left at 2 different restaurants on the same night.

What do you notice? What do you wonder?

2 Data Displays

Student Task Statement

Your teacher will assign your group a statistical question. As a group:

1. Create a dot plot, histogram, and box plot to display the distribution of the data.
2. Write 3 comments that interpret the data.

As you visit each display, write a sentence or two summarizing the information in the display.
